

Eco-Educational Offer 2016

FOR KINDERGARTENS

Age level: from 4 to 6 years

Time Frame: 45 minutes (indoor at your school)

Goal: to enable children to understand the importance of nature

protection through sense – perception, kinetic and other activities

► PROGRAM OFFER ◀

THE STORY OF UNCLE BEN

Uncle Ben tells us a story about his village, which is dirty, smelly and where people and animals do not like to live. Will the children help uncle Ben to renew (rebuild) his village so that life and happiness can return? Let them talk today about what each of them can do...

BACK TO PREHISTORIC WORLD

Children will have a look into prehistoric past to solve together the mystery of fossil creation. What are fossils, how are they created and which fossils do we recognise? In a game of little adventurers the children will discover and colour in their own fossil imitations made from plaster.

► ORDERING, PAYMENT ◀ AND CANCELLING

- Ordering – at least 3 weeks prior to program, an official order from your school is requested. You can order a program by e-mail or phone – see contact details below.
- Payment is possible on the day when the program takes place, either by cash or by invoice.
- Cancelling – is possible at latest 2 days prior to program. After this term it is possible only to exchange (not cancel) the date for another suitable date.

MAGIC WETLAND

Croakie the little frog introduces us to her home – the wetland. We will see and even touch what the wetland is and meet Croakie's friends. We will find out how important wetlands are not only for them, but also for us – people, and why they are in danger.

FOREST FAIRY

In every forest and in each tree there lives a fairy. Today one of these fairies will come to the class and tell the children the true story about trees as living beings. She will tell and show how trees smell, sound and that they provide a home for animals. At the end of this story, the whole class will play some musical instruments made from natural materials which the fairy brings along, because believe it or not, in the forest the trees play their own music.

► PRICE ◀

3 € per pupil, minimum number of pupils is 10 per a 45 – minute lecture. Price includes guides and props.

We will be most delighted to adapt our offer according to your individual needs.

FAITHFUL FRIENDS W, AT AND ER

On our journey around the world we met three special drops of water – their names were W, AT and ER. What does really happen with the water when it ends up in the ocean? Let's find out why the water is so important.

THE SECRET OF MEDICAL HERBS

Using stories of animals and plants that live on meadows, children will learn about common herbs and learn how to distinguish these herbs by their smell and taste. They will also learn how herbs help us treat certain illnesses.

WASTE SEPARATION

IN THE MAGICAL LAND THE OAKIES

Through the story about the magical land Oakies and the negligent Shabbey children will learn how to handle correctly household waste and what second – use materials can be made from “ordinary” waste. To ensure that they can change behaviour of people similar to Shabbey, the children will get a little tool to help them.
