Centres of exquisite nature experience in the Slovak-Austrian borderland

schlossORTH Nationalpark-Zentrum

Schlossplatz 1, 2304 Orth an der Donau
+43 2212 3555, schlossorth@donauauen.at
www.donauauen.at

The range of services offered by the Visitor Centre of the Donau-Auen (Danube Floodplains) National Park includes guided tours on land or water and various other attractions, such as an interactive multimedia exhibition of the wetlands, an observation tower with thematic exhibits, or a visitor shop with a selection of souvenirs, printed materials, or equipment for the local outdoor tours. A spectacular presentation of diverse local habitats, flora and fauna may be enjoyed on the so-called Castle Island with its unique underwater observatory.

Schloss Eckartsau

2305 Eckartsau
+43 2214 2240, schlosseckartsau@bundesforste.at
www.schlosseckartsau.at

The historical complex of the Schloss Eckartsau manor house attracts guests with its exhibitions, café, and a visitor shop. A permanent interactive exhibition of the Donau-Auen National Park Wild.Wechsel is found on its ground floor, while the surrounding landscape park with a play-and learn woodland area makes a fine leisure spot and a starting point for the Danube wetland tours. Tip: It is located directly on the Danube Cycle Path!

Nationalparkhaus wien-lobAU

1220 Wien, Dechantweg 8
+43 1 4000 49495, nh@ma49.wien.gv.at
www.nph-lobau.wien.at
www.donauauen.at/besuchen/nationalparkhaus-wien-lobau

The Wien Lobau Visitor Centre is a gateway to the Donau-Auen National Park from the Vienna direction. Its interactive sound and visual demo show offer an authentic experience of the wetlands' nature. Visitors can also enjoy the local garden park with a play area and a vast network of bike paths and hiking trails in the surrounding countryside.

Nationalparkzentrum Neusiedler See – Seewinkel

Hauswiese, A – 7142 Illmitz
+43 (0) 2175 3442, office@npneusiedlersee.at
www.nationalparkneusiedlersee.at

The Centre is open all year round and is the starting point for many tours. A (free) exhibition provides insights into the transboundary National Park.

Storchenhaus Marchegg

Im Schloss 1, 2293 Marchegg
+43 699 1268 0006, office@schlossmarchegg.at
www.schlossmarchegg.at

The largest colony of tree-nesting storks in the Central Europe inspired the foundation of a "Stork House" in the compounds of the recently restored Baroque manor house of Marchegg. The centre offers tours of the Lower March Wetlands Natural Reserve, a selection of local products, publications, or manor house guided visits focused on historical and natural gems of the March country.

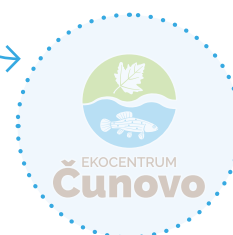

Have you visited any of these centres? Use a stamp to mark it.
You can get a visitor stamp right at the centre.

Ekocentrum Čunovo

Schengenská 218, 851 10 Bratislava
+ 421 951 931 623
www.ekocentrumcunovo.sk

The manor house of Čunovo, converted into the Eco-Centre with an educational park after its restoration, houses an interactive nature and history exhibition. Its experience programmes, camps, creative workshops and guided tours for schools and for the public are focused on the history, nature, traditions and singularities of the Danube region.

Infocentrum Kamzík

Kamzík-Les, 831 01 Bratislava – Nové Mesto
www.lesybratislava.sk

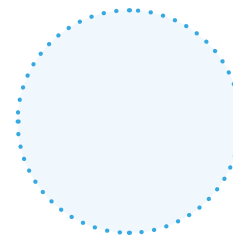

The Kamzík (Chamois) Information Centre in the Bratislava Forest Park offers a range of educational programmes, guided tours, lectures, and workshops both for schools and for the general public. Its outdoor compound includes leisure and educational installations, and a collection of rare tree species of the former arboretum.

Ekocentrum Devínska Nová Ves

Istrijská 49, 841 07 Bratislava
+421 2 64 77 02 60, info@tikdnv.sk
www.tikdnv.sk

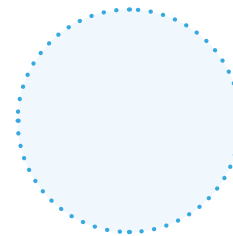

The portfolio of environment and ecology-related educational programmes for children organised by the Eco-Centre, operating in an 18-century toll-house building, is extended by a variety of public lectures or guided outings (especially to the Devínska Kobyla Nature Reserve, or to the Morava River countryside).

Ekocentrum Stupava

Hlavná 9C (visavis Rathaus), 900 31 Stupava
+421 917 760 559, ekocentrum@stupava.sk
www.mkiic.sk

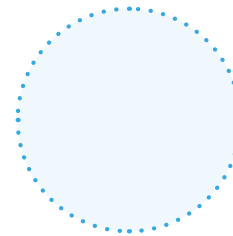

The Eco-Centre focuses on environmental education of children and adults through exhibitions, workshops, reading parties, or guided tours, and offers information on local events, natural treasures, or sites of interest in the neighbourhood. The centre operates in a restored old homestead known as the Krupička House, with the former estate park now containing a sensory garden, a historical glasshouse with an educational trail, and a playground for kids.

Komunitné vzdelávacie centrum pre klímu a biodiverzitu

ZŠ Alexandra Dubčeka, Majernikova 62, 841 05 Bratislava
+421 2 707 11 143 / 144, spravca-KVC@karlovaves.sk
www.karlovaves.sk/zivotne-prostredie-a-projekty/komunitne-centrum-pre-klimu-a-biodiverzitu

The main aims of the Community Climate and Biodiversity Centre are to build up community life, encourage education and raise the public awareness of the climate change topics. The centre, set up in the local primary school building and accessed by a separate entrance from Ludovít Fulla Street, offers its visitors a fine presentation room and an outdoor educational trail with various biodiversity conservation installations, such as "insect hotel" shelters, or a herb garden.
